

MATERIALS

- Additives
- Bitumen modified with polymer additives
- Bituminous membranes
- Concrete Paving
- Drains
- Elastomer polymers
- Emulsions
- Fibres
- Fluxes and release agents
- Geo-textiles
- Industrial bitumen
- Limestone
- Modified road bitumen
- Porphyry
- Resins
- Road barriers
- Road bitumen
- Road signs
- Rubber powders
- Sealants
- Special bitumens
- Special bituminous conglomerates
- Special road bitumens
- Steel mill slag filler
- Stone aggregates to build road embankments
- Street furnishing
- Viscous coupling units

EQUIPMENT

- Adaptable rammer components
- Adaptable rammers
- Aggregate crushing and grading plant
- Aggregate crushing and screening plant
- Aggregate crushing equipment components
- Aggregate crushing, screening and storage plant
- Aggregate crushing, screening and washing plant

- Aggregate grading and washing systems
- Aluminium scrap screening
- Articulated dump truck components
- Articulated dumpers
- Asphalt analysis equipment
- Asphalt analysis equipment components
- Asphalt mixing plant
- Asphalt mixing plant components
- Automixers for poured asphalt
- Bagging machine components
- Bagging machines
- Bio-separator components
- Bio-separators
- Bitumen storage tank components
- Bitumen storage tanks
- Bitumen transport tank components
- Bitumen transport tanks
- Bituminous conglomerate production plant
- Bituminous conglomerate production plant accessories
- Bituminous conglomerate production plant components
- Bituminous conglomerate recycling equipment
- Bituminous conglomerate recycling equipment components
- Bituminous emulsion production plant
- Bituminous emulsion production plant components
- Bituminous emulsion spraying tank components
- Chipper components
- Chippers
- Co-generation systems
- Co-generator components
- Cold conglomerate production mixing plant conglomerates
- Cold conglomerates production mixing plant
- Cold milling machine components
- Cold scarifying machines
- Compactor rollers for excavations
- Compactor rollers for soil and asphalt
- Compressor roller components
- Compressor rollers
- Constrained oscillation aggregate screening equipment
- Constrained oscillation aggregate screening Equipment components
- Container trailer weighing systems
- Container transport tractor components
- Container transport tractors
- Containers
- Continuous bituminous conglomerate production plant
- Continuous bituminous conglomerate production system components
- Crane components
- Cranes
- Crawler excavator components
- Crawler tractor components
- Crusher components
- Crushing mills
- Deflectometers
- Deflectometers components
- Detection and diagnostic instrument components
- Diagnostic and measurement equipment and tools
- Diathermic boiler components
- Diathermic boilers
- Discontinuous bituminous conglomerate production plant
- Discontinuous bituminous conglomerate production plant components
- Drum casting equipment
- Drum casting equipment components
- Ductility machine
- Ductility meter components
- Dust suppression equipment components
- Dust/powder suppression
- Dynamic testing equipment
- Dynamic testing equipment components
- Emulsion and bitumen sprayer components
- Emulsion and bitumen sprayers
- Excavation compactor roller components
- Extruder components

- Extruders
- Fixed backhoe loader components
- Fixed backhoe loaders
- Fixed crusher components
- Fixed crushers
- Fixed dumper components
- Fixed Dumpers
- Fluxed bitumen production plant
- Fluxed bitumen production plant components
- Fork lift transport tractors
- Fork lifts
- Forklift components
- Forklift transport tractor components
- Free aggregate oscillation vibrating screening equipment
- Free aggregate oscillation vibrating screening equipment components
- Generating set components
- Generators
- Glass and paper recovery
- Gold-bearing sand recovery and washing plant
- Gold-bearing sand recovery and washing plant
- Grab bucket components
- Grab buckets
- Grading and washing of polluted land
- Grit spreader components
- Grit spreaders
- Grit spreading equipment
- Grit spreading equipment components
- Heap turner component
- Heap turners
- Heat exchanger components
- Heat exchangers
- Hydraulic hammer components
- Hydraulic hammers
- Impact tester
- Impact tester components
- Incinerator ash glazing
- Industrial separator components
- Industrial separators
- Industrial weighing systems
- Inert material processing equipment
- Inert material processing equipment components
- Loader weighing systems
- Manually guided roller components
- Manually guided rollers
- Material handling weighing systems
- Mini excavator components
- Mini excavators
- Mixer components
- Mixers
- Mobile screening components
- Mobile screens

- Modified bitumen (PMB) production plant)
- Modified bitumen production plant (PMB) components
- Motor grader
- Motor grader components
- Non-ferrous scrap screening
- On-board weighing systems
- Penetrometer components
- Penetrometers
- Recovery of ferrous scrap washing fines
- Recovery of slag from steel mills
- Rheometer components
- Rheometers
- River sand crushing, screening and washing plant
- Road core drills
- Road core-drilling components
- Road milling machine components
- Road milling machines
- Road paving scarifying and granulating machinery
- Road paving scarifying and granulating machinery components
- Road roller components
- Road rollers
- Road sign production machinery
- Road sign production machinery components
- Road sweeping machines
- Roadside green maintenance machinery
- Roadside green maintenance machinery components
- Rotary aggregate screening equipment
- Rotary aggregate screening equipment components
- Rubber roller components
- Rubber-mounted thermal asphalt container tank components
- Sand crushing, grading and processing plant
- Sand washing and cyclone separation systems
- Scales for dumper trucks
- Scales for timber handling cranes
- Self-mixing components for poured asphalt
- Semi-trailer components
- Semi-trailers
- Shearing components
- Shears
- Shredder components
- Shredders
- Simultaneous spreader components
- Simultaneous spreaders
- Single drum compactor components
- Single drum compactors
- Skid steer loader components

- Skid steer loaders
- Soil and asphalt compactor roller components
- Spraying tanks
- Stability tester
- Stability tester components
- Stabilizer components
- Stabilizers
- Street sweeping machinery components
- Sweeper bucket components
- Sweeping buckets
- Tandem compactor components
- Tandem compactors
- Tandem roller components
- Tandem rollers
- Telehandler components
- Telehandlers
- Track laying loader components
- Track-laying excavators
- Track-laying loaders
- Track-Laying Tractors
- Trailer components
- Trailers
- Vibrating finisher components
- Vibrating finishers
- Vibrating plate components
- Vibrating plates
- Vibrating rammer components
- Vibrating rammers
- Waste and scrap grab components
- Waste and scrap grabs
- Waste compactor components
- Waste compactors
- Weighbridge systems
- Wheel loader components
- Wheeled excavator components
- Wheeled excavators
- Wheeled loaders
- Wheeled rollers
- Wheel-mounted heated asphalt container tanks
- Yard crane weighing systems

SERVICES

- Authorities
- Institutions
- Material analysis and testing laboratories
- Trade associations
- Trade press and media
- Universities
